

## Introducing Hearts of Palm from Costa Rica

Scout Marketing LLC introduces Hearts of Palm from Costa Rica! These delicate, yet tender, Hearts of Palm come from the root of the palm plant, where the nutrients are most highly concentrated, adding to their strong and pleasing texture and flavor. Produced in an environmentally friendly agricultural system that avoids using pesticides, these hearts are not only beneficial in the manner in which they are cultivated for the environment, but also for your own nutritional benefits. Our Hearts of Palm are a very dietetic food, rich in non-energetic

nutrients, and high in fiber and minerals. Their high levels of protein, with virtually no fat or cholesterol, will truly make your heart happy.

- **Premium hearts of palm have a firm, excellent texture with a slightly stronger flavor than our Hearts of Palm (Extra) product line. Packed in a 14 oz glass jar.**
- **Extra hearts of palm packed in a 14 and 28 oz can.**
- **Perfect for salads, antipasti, and gourmet dishes**
